

Experiment-1

Hospital Management system

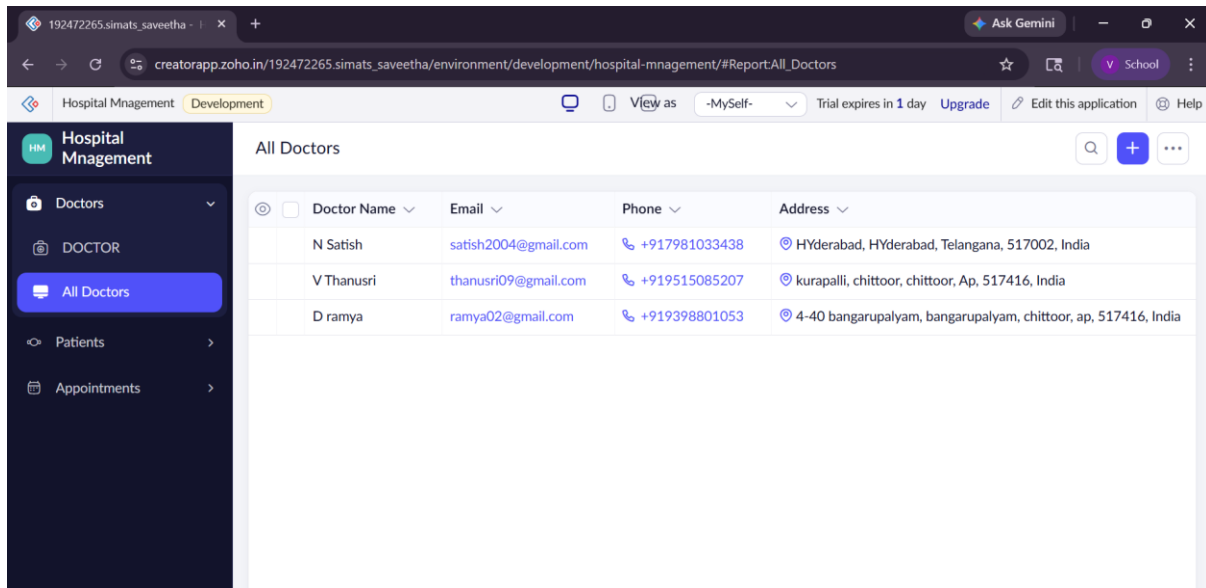

Aim

To design and develop a Hospital Management System using Zoho Creator for managing patients, doctors, appointments, billing, and medical records efficiently.

Procedure:

1. Log in to Zoho Creator and create a new app.
2. Create forms: Patients, Doctors, Appointments, Billing.
3. Add required fields in each form.
4. Link forms using lookup fields.
5. Add basic workflows (ID generation, billing calculation).
6. Create reports to view data.

Output:

Doctor Name	Email	Phone	Address
N Satish	satish2004@gmail.com	+917981033438	HYderabad, HYderabad, Telangana, 517002, India
V Thanusri	thanusri09@gmail.com	+919515085207	kurapalli, chittoor, chittoor, Ap, 517416, India
D ramya	ramya02@gmail.com	+919398801053	4-40 bangarupalyam, bangarupalyam, chittoor, ap, 517416, India

Result:

Hospital Management System is created to manage patient and hospital details.
