

Experiment-4

Rental system for Chennai

Aim

To develop a cloud-based Property Buying & Rental system for Chennai using Zoho Creator to manage property listings, buyers/tenants, and transactions, demonstrating SaaS.

Procedure:

1. Login to Zoho Creator and create a new application.
2. Create forms for Properties, Users (buyers/tenants), and Bookings.
3. Add fields like location, price, property type, and user details.
4. Apply logic to match properties with user requirements.
5. Create reports to view listings and bookings.
6. Design a simple dashboard.
7. Deploy the application on cloud.

Output:

Location	Budget	Property Type
koyambed	45000	Choice 3
Velacherry	1000000	Buy
Tambaram	50000	Rent

Result:

The Property Buying & Rental system was successfully developed using Zoho Creator. It allows users to view, book, and manage properties online, demonstrating SaaS functionality.
